The Multicultural Music Fellowship presents Harpists Serenade Ancient Redwoods Bay Area Youth Harp Ensemble Releases 3rd Video

Listen, tread softly...

Bay Area Youth Harp Ensemble (BAYHE) is a group of young harpists playing folk harps, directed by well-known Bay Area harpist Diana Stork. Diana, BAYHE, and some of BAYHE's illustrious alumnae traveled to Humboldt County from the Bay Area summer of 2016. The harpists presented programs of harp music with a theme for forests, trees, animals and preserving nature. The tour raised awareness of the imminent need to protect the precious remaining ancient and old growth redwood trees and forests, and to share the beauty of the harp.

BAYHE just released their third video to continue to fundraise and protect the trees. Enjoy the beautiful integration of harpists and trees:
